A PODCAST IS MORE THAN JUST A SHOW.

It can be content.
It can be media.
It can build a brand.
It can attract customers and strengthen PR.
It can become a business in its own right.

And, most importantly:
it brings people together.

PODCAST CONGRESS – BUSINESS EXPO 2026
is a full-day event for podcasters, aspiring creators and businesses looking to grow through content. It also brings together the technology, media and service providers supporting this industry.

We go beyond how to make a podcast.

We show how a podcast can lead to:

CONTENT → MEDIA → AUDIENCE → TRUST → BUSINESS → CONNECTIONS

CONGRESS × BUSINESS EXPO × NETWORKING

One event. Three connected experiences.

CONGRESS

KNOWLEDGE. EXPERIENCE. INSPIRATION.

A comprehensive full-day program featuring practicing podcasters, media and marketing experts, entrepreneurs, and key players in the podcasting industry.

Podcast Congress explores the realm of podcasts through four primary themes.

PODCAST × CONTENT

What makes content worth listening to and watching?

Topics • Formats • Show Structure • Hosting • Guests • Storytelling • Audio and Video Podcasts • AI in Content Creation

PODCAST × MEDIA

How does your content reach its audience?

Podcast platforms • YouTube • social media • short-form video • public relations • radio • cross-media • syndication • distribution

Because:

Your podcast doesn't end when you upload it.

PODCAST × BUSINESS

How does content translate into business value?

Personal Branding • Audience Growth • Sponsorships • Advertising • Branded Podcasts • Products and Services • Customer Acquisition • Monetization

How do you turn

listeners → followers → leads → customers?

PODCAST × CONNECTIONS

Because every podcast connects people.

Guests • program producers • service providers • partners • media representatives • advertisers • sponsors • clients • business partnerships
